

Lloydminster Curling Club

Call for Applications – Head Ice Technician

The Lloydminster Curling Club is seeking an experienced Head Ice Technician for the curling facility located in Lloydminster, Saskatchewan.

Purpose: To maintain the Lloydminster Curling Club's ice during its curling season

Functions & Duties:

- Ensure that all materials necessary to commence the installation and maintenance of ice for the new season are on site prior to October of each year
- Install the ice for the new season during the first two weeks of October
- Maintain the ice and equipment throughout the curling season by monitoring conditions daily and by making necessary adjustments/repairs
- Prepare the ice (shaving, nipping & pebbling) prior to each game (leagues, bonspiels, rentals)
- Ensure that, in the case of his/her absence, a trained replacement takes over ice making responsibilities (at the ice technician's expense)
- At the end of March, remove the ice at the end of the curling season and clean and store all ice related equipment and material
- Follow a certified ice technician's course, at the club's expense, within one year of employment
- Prepare & present monthly reports to the Board of Directors

Specific Accountabilities

- Leadership
- Facility Management
- Member Relations & Promotions
- Technology & Social Media
- People person with ability to relate to members, business community, curling associations
