

Canada Winter Games Curling Coach Requirements

Curling Canada has received special permission from the Canada Winter Games Council for an exception from the standard Competition Development Certified Status rule normally required by the Canada Winter Games.

For the sport of curling – both fours and mixed doubles – Coaches must be at minimum “Competition Development In-Training.”

To achieve this status coaches must be:

- Fully certified Competition Coach
- AND have completed the following three Competition Development Modules
 - Health and Wellness (delivered by Curling Canada)
 - Manage a Program (delivered by Curling Canada)
 - Managing Conflict (delivered by provincial/territorial coaching representatives)
- Absolutely NO exemptions from this standard will be approved by Curling Canada since the exception has already been established.
- Coaches must have achieved this standard by January 12, 2027

See details before as to where to source training.
